**WARNING - SIGNIFICANT AND/OR INTENSE PHENOMENA**

At high altitudes the presence of snow, with different depths and extensions according to altitude and exposure, can't be excluded. For this reason a strictly local evaluation of avalanche and ice danger is required, in addition to suitable clothing and equipment for snow-clad areas. For further information and details on weather forecasts and conditions please refer to [www.meteoam.it](http://www.meteoam.it)
