

## Danger Level 1 - Low

**Tendency: Decreasing avalanche danger**  
on Tuesday 09 12 2025

Gliding snow

Gliding avalanches are possible in isolated cases.

Mostly small gliding avalanches are possible above approximately 1800 m.

## Snowpack

The weather conditions will give rise to increasing moistening of the snowpack below approximately 2000 m. As a consequence of mild temperatures the snowpack will consolidate during the next few days.
